

TOURISM IN THE DISTRICT OF WOLSZTYN

District Wolsztyn is located in the western part of a province called Greater Poland, in the borderland of Lake District Poznańskie i Lubuskie.

Wolsztyn is situated 70 km from Poznań, and 60 km from Zielona Góra. The western border is close, therefore the closeness considerably facilitates the contact with the whole Europe. The motorway A2 starts circa 30 km from Wolsztyn. Slightly closer, in Babimost, there is an airport from which you can get to all major cities in Poland. The most vital element of the communication network is the trunk road – number 32 - from Poznań to Zielona Góra, which connects the trunk road number 5 Poznań – Wrocław with the trunk road number 3 Szczecin - Zielona Góra.

The town Wolsztyn – both the district town and the main centre of the district, the registered office of urban – rural district, the town is the local development centre which characterizes industry and service development.

The former urban planning layout, the location on the isthmus of two lakes (Wolsztyńskie i Berzyńskie), attractive nature and landscape qualities determine the solid base of tourism and recreation on the district premises. Numerous district resorts, bathing beaches, forests plenty of mushrooms and reserves make this place marvelous for resting, sightseeing trips and sports camps.

The surroundings take pride in varied flora, engaging animal world and numerous natural monuments. The uniqueness of the area is a moor called “Chorzemińskie Swamp,” which is a nature reserve.
